

# Jaguar Medicine

*A wisdom path of*

*healing*

*Facilitated by*

*Richenel Ansano, MA and Vera Moura, MD*

A five-week gathering in which we will walk the path of impeccability, courage, compassion and mystery. Teachings during this gathering are based on traditional and modern knowledge of connecting with and utilizing our inner wisdom and nature's healing forces. Participants will learn how to live from the heart through deep immersion in the elements of Earth, Air, Water and Fire and working with their inner core. A key to this gathering is who we become in the process of connecting heart and mind to live in balance with all that surrounds us. Walking a healing path releases deep wisdom, healing and healing abilities, and enables us to live with gratitude and enjoyment. The gathering includes rituals and practices that we can incorporate into our daily lives.

At the completion of the series we will be offering monthly sessions to those who want to deepen their experience.
